BEECH

Strong wood with whitish to pale brown straight grain and small grey flecks. Although we hand select our lumber, you can expect some light mineral color and streaking which will be more noticeable on light finishes.

RUSTIC BEECH

Repaired knots of various sizes and heavy mineral coloring and streaking, which is more visible on lighter finishes.

MODERN CLASSICS

Durable, moderately strong hardwood with reddish-brown hue, straight grain and fine texture. Although we hand select our lumber, you can expect some slight mineral streaks, gum or pitch pockets and a small percentage of white sapwood. These characteristics are more noticeable on lighter finishes. Cherry wood darkens over time and exposure to light.

HICKORY

A dense, tough, coarse-textured wood with white sapwood and reddish-brown heartwood. The color and graining patterns will have variations from black to brown in the heartwood to yellow in the sapwood. Certain stains will amplify this effect.

MODERN CLASSICS

Heavy, straight-grained wood with a fine texture. The sapwood is white and selected for its light color; maple does not generally take dark colors well and may appear blotchy. On light colors the natural mineral streaks may not be concealed. Darker colors often conceal these mineral streaks.

RED OAK

Timeless hardwood with a coarse texture and a pinkish-red hue. The texture of the wood varies according to the rate of growth, but typically has a strong open grain pattern with a mix of straight and cathedral grain patterns. Although we hand select our lumber, you can expect small amounts of mineral streaking, pin knots and burls as well as occasional ray flakes.

MODERN CLASSICS

Stable wood with pale yellow-brown to pale brown tones, sometimes with a pinkish tint. As a result of the quarter sawing process, the wood exhibits a beautiful grain texture with a uniform straight grain and a striking ray flake figure. Although we hand select our lumber, you can expect occasional pin knots and light mineral streaks.
